Hammerstrom Appointed to Health Policy Task Force

April 10, 2003 – Senator Beverly Hammerstrom (R-Temperance) was recently appointed to the Council of State Governments’ (CSG) Health Capacity Task Force.

The Health Capacity Task Force is a national committee that provides a forum for state leaders to address the challenges presented by the dynamically changing social, economic and political environments. Members of the task force track national conditions and emerging trends in health-related issues, identify innovative and effective solutions, and develop viable policy positions based on their findings.

“I am honored to serve on this task force, which addresses important challenges that Michigan and other states face,” said Hammerstrom. “This task force will provide an opportunity to examine what other states are doing in regard to health care reform.”

In addition to serving on the CSG’s Health Capacity Task Force, Senator Hammerstrom currently serves as Chair of the Senate Health Policy Committee, is a member of the American Legislative Exchange Council and was recently appointed to the National Conference of State Legislatures’ Health Committee.
